RUBBERS THAT WEAR WELL

If you wish a Rubber Shoe that will give you good service try a pair of our Gold Seal shoes; they are the only shoe in the market that is made strictly of pure rubber and will wear two or three times as long as any others. Ladies say they last them all winter! Fifty cents will give you a test, after which you will use no other make. For sale in Buffalo only at our own store, 240 Main Street, (opposite Academy of Music.) Recollect, there is but one store of our company in Buffalo.

· · · The American People · · ·

According to Dr. Crampton, the best authority, pay very nearly if not quite $25,000,000 a year for baking powders. And this industry, so great in extent and so universal, began scarce 50 years right here in Buffalo.

It began with William's baking powder, which was the predecessor to HARRIES' and the only changes from that day to this have been the change in name and the change in the method of selling. The change in name came naturally with the firm change of Powell & Plimpton. The change in method comes now, after 50 years — the selling *in cans only* instead of in bulk.

It's a little more costly than it used to be, but the benefit isn't to the makers so much as to the buyers.

FOWLER'S KITCHEN CABINET.

Patented April 27th, 1886.

THIS cabinet furnishes in condensed space a receptacle for kitchen utensils and dry groceries constantly used in the kitchen of every household, and at the same time takes the place and occupies no more space than the ordinary kitchen table, as shown in the engraving. The central portion is stationary, while the end cases being hung on pivots swing outwardly, bringing the flour box and sugar boxes from under the table top and making everything in the cabinet accessible without taking a step. When not required for use, these end cases swing back into position under the table top and the cabinet presents a neat and compact form.

No. 1—Sugar boxes. No. 2—Cupboard for molasses jug. No. 3—Bread or cake board. No. 4—Meat board. No. 5—Tea and coffee. No. 6—Oat and corn meal, etc. No. 7—Rice, hominy, etc. No. 8—Kneading board. Fairness and Frankness Pay.

Reliable clothing and low prices are our signals that business has a clear track. No two-price trade.

Haggling over prices belittles goods that are worth having. It wastes your time and upsets your confidence. How can you know where to stop dickering?

Our one lowest price, fixed, lowest to you, lowest to everybody, secures you against paying a cent past a just price.

You may know quality or you may not—that price is the lowest you will find in the city for quality. We have been too long in the business to put prices on our goods that competition can undercut.

We stand as squarely by our goods as our prices.

Why shouldn't we? We know them through and through. We clinch price and goods with a guaranty as effective as a bank check.

Need we go to any subterfuge? You can get your money back an hour or a week after if you're dissatisfied.

We can well be frank! We can well be fair! with such goods and such prices. We're sure the gateway of business swings widest open to both.
