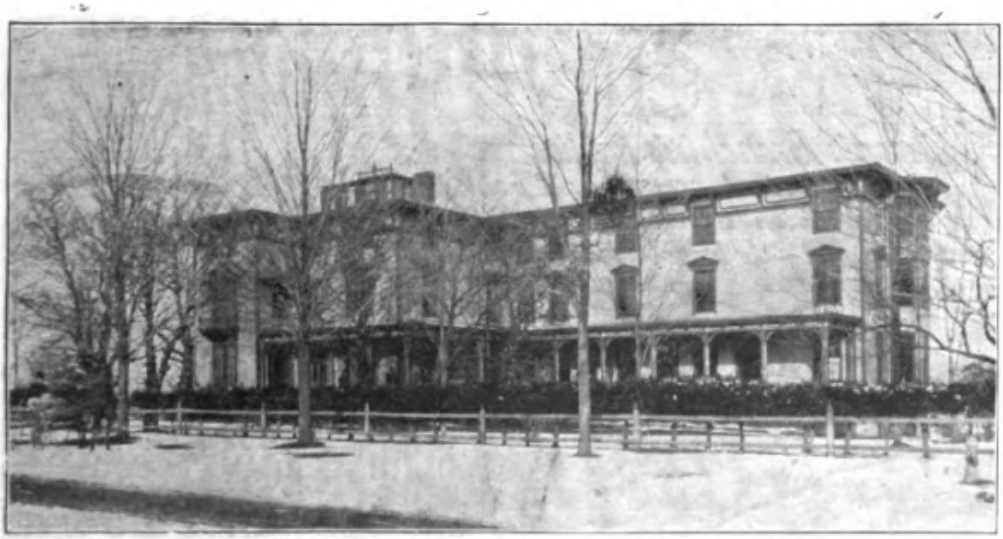
ALCOHOL AND OPIUM INEBRIATES.



Elegantly situated in the suburbs of the city, with every appointment and appliance for the treatment of this class of cases, including *Turkish*, *Roman*, *Saline* and *Medicated Baths*. Each case comes under the direct personal care of the physician. Experience shows that a large proportion of these cases are curable, and all are benefited from the application of exact hygienic and scientific measures. This institution is founded on the well-recognized fact that *Inebriety* is a *disease* and *curable* and all *these cases* require *rest, change of thought and living*, with every means known to science and experience to bring about this result. Clinical

DISEASES
OF THE
RESPIRATORY TRACT

usually disappear as the general bodily nutrition and vitality improve. This is why

GRAY'S GLYCERINE TONIC COMP.

accomplishes such surprising results in many a serious, intractable case of bronchitis or other respiratory disease, when other remedies fail completely. Its use stimulates the appetite, promotes digestion, increases assimilation, and raises the whole vital index. The benefits, therefore, are permanent—not transitory.

Note.

The IMPLICATION of CHRONIC BRONCHITIS

Chronic Bronchitis implies lowered vital powers and points plainly to the need of a tonic expectorant. In this condition depressants should be avoided. The patient's strength must be restored—the bronchial irritation stopped—expectoration made easier.

SERVES THIS TRIPLE PURPOSE FAR BETTER THAN ANY OTHER AGENT OR COMBINATION AND IS, THEREFORE, PARTICULARLY INDICATED.
