late the carrying on of manufactures dangerous in causing or producing fires, and may authorize and direct the removal of any hearth, fire-place, stove-pipe, flue, chimney or other conductor of smoke, or any apparatus or device in which any fire may be used, or to which fire may be applied, that shall be considered dangerous and liable to cause and promote fires, and generally may adopt such other regulations for the prevention and suppression of fires as they may deem necessary.

SEC. 6. For the purpose of enforcing such regulations the common council may authorize any of the officers of the said city, and may appoint persons, at all reasonable times to enter into and examine all dwelling-houses, buildings, and tenements of every description, and all lots, yards and enclosures, and to cause such as are dangerous to be put in safe condition; and may authorize such officers and persons to inspect all hearths, fire places, stoves, pipes, flues, chimneys or other conductors of smoke, or any apparatus or device in which fire may be used or to which fire may be applied, and remove and make the same safe, at the expense of the owners or occupants of the buildings in which the same may be, and to ascertain the number and condition of the fire buckets, and the situation of any building in respect to its exposure to fire, and whether scuttles and ladders thereto have been provided, and generally with such powers and duties as the common council shall deem necessary to guard the city from the calamities of fire.

SEC. 7. The common council may procure, own, build, erect and keep in repair such and so many fire engines, with their hose and other apparatus, engine houses, ladders, fire-hooks, and other implements and conveniences for the extinguishment of fires, and to prevent injuries by fire, and so many public cisterns, wells and reservoirs of water as they from time to time shall judge necessary.

SEC. 8. The common council shall have power to organize said city into so many fire districts as they may deem necessary, and may organize and maintain a fire department for said city, to consist of one chief engineer, two assistant engineers, and twice as many wardens as there are wards in the said city,
