Royal Baking Powder

The United States Official Investigation

Of Baking Powders, recently made, under authority of Congress, by the Department of Agriculture, Washington, D. C., furnishes the highest authoritative information as to which powder is the best. The Official Report

Shows the ROYAL to be a cream of tartar baking powder, superior to all others in strength and leavening power.

The Royal Baking Powder is absolutely pure, made from the most wholesome materials, and produces finer flavored, sweeter, lighter, more wholesome and delicious bread, biscuit, cake, pastry, etc., than any other baking powder or leavening agent.

Food raised by it will keep sweet, moist, fresh and palatable longer than when raised by yeast or other baking powders.

Being of greater strength than any other baking powder, it is also the most economical in use.

These great qualities warrant you, if you are not using the Royal Baking Powder, in making a trial of it.
