THE WELLCOME TRUST

Research Grants for Studies in the History of Medicine

The Wellcome Trustees invite applications for grants from post-doctoral scholars with historical training, who are currently associated with a university department in Britain and actively engaged in independent research.

Fellowships of up to two years will be considered to enable applicants to undertake a specific research programme related to some aspect of the history of medicine or medical science. By arrangement with the appropriate authorities, applicants with university posts could take a period of research leave and the cost of a temporary replacement be funded by the Wellcome Trust.

Applicants are asked to put forward their case in a letter of not more than two foolscap pages. A curriculum vitae and, in the case of unestablished workers, the name of a suitably qualified person who has agreed to supervise the research, must also be provided.

The closing date for applications is 31st March, and they should be sent to:-

The Grants Section (HOM), The Wellcome Trust,
1 Park Square West, London NW1 4LJ.
