BLOOD ON LAKE LOUISA

By Baynard H. Kendrick

THIS is a murder-mystery story of an unusual kind. It is laid in a setting of the Florida that neither the tourist nor the resorter know—the Florida of marshland and woods and eerie back-country lakes.

The book rises far beyond the common run of mystery stories in that it is brilliantly written and that its people are real flesh-and-blood characters whom the reader comes to know well. And in achieving a fine quality of drama, horror and suspense, the author resorts to no mechanical aids, long-armed coincidences or other artificial trickery.

BLOOD ON LAKE LOUISA won third place in a contest conducted by a national magazine in which more than 7,000 manuscripts were submitted. It is the best story of its kind which we have ever published and is recommended without reservation.
