NONPRINT NOTICES

•The first voice-indexed dictionary for blind and physically handicapped people has been produced

by the National Library Service for the Blind and Physically Handicapped at the Library of Congress. This cassette dictionary, recorded from Houghton Mifflin's *Concise Heritage Dictionary*, contains all of the 55,000 entries of the print edition. NLS/BPH has entered into an agreement with the American Printing House for the Blind in Louisville, Kentucky, to duplicate, package, and sell the dictionary at cost. It should be available for purchase by handicapped individuals by late fall 1983 at the production cost of \$82.54. The dictionary will also be available for use at each of the 160 cooperating libraries nationwide serving NLS/BPH readers.

To find a word the reader listens to spoken index terms audible when the cassettes are played in fast-forward speed. The tape is stopped when the desired index word is heard, and the full dictionary entry can then be heard at the normal playing speed. The dictionary is contained on 219 sides of 55 cassettes and is recorded in the standard NLS/BPH 4-track, 15/16 ips format. It can be ordered from American Printing House for the Blind, P.O. Box 6085, Louisville, KY 40206. ■■
