# TOP SECRET

If you haven't already ordered WIPIS™ for 1971, then you might as well consider the information it contains top secret! Data in the 1971 Annual of ISI's WHO IS PUBLISHING IN SCIENCE™ just isn't available from any other single source.

Only ISI's unique multidisciplinary data base can give you the names and current addresses and organizational affiliations of more than 230,000 scientists and technologists who had a journal article published during 1970. Scientists from over 35,000 organizations around the world are included — scientists whose research work ranges from experimental to applied.

With WIPIS you can

- Help your patrons keep in touch with colleagues, exchange ideas, arrange meetings, or request reprints
- Check the level of scientific writing activity at specific organizations and their various departments
- Identify and locate little-known organizations — especially foreign ones
- Verify authors' names for bibliographies

And WIPIS is easy to use. Indexing by name, organization, and geographic location makes it possible for anyone to use WIPIS without your constant guidance. Result: Your patrons can help themselves while you work on other projects.

Now that we've disclosed *some* of the details of WIPIS, we'll be happy to totally de-classify our top secret data for you. Use the coupon to order.

"An impressive . . . dual media collection . . . [a] monumental work."

Joe Morehead, RQ, Spring 1971

**UPDATES THE 1909 CHECKLIST AND OTHER BASIC REFERENCE TOOLS USED BY DOCUMENTS LIBRARIANS**

Here's how the two standard reference books on U.S. Government documents evaluate the public Documents Library, its collection, the SuDocs Classification scheme, and the need for updating the predecessors of *Checklist '70*.

**GOVERNMENT PUBLICATIONS AND THEIR USE,** L. F. Schmeckebier and R. B. Eastin, 2nd Revised Edition, Brookings Institute, 1969.

"There is probably no complete collection of government publications in existence, but the one in the Public Documents Library is probably the most nearly complete . . . it has all issues listed in the Monthly Catalog and the biennial Documents Catalog. It also has some material not so listed, as back issues are often sent to the library after the catalogs are printed."

**UNITED STATES GOVERNMENT PUBLICATIONS,** A. M. Boyd and R. E. Rips, 3rd Revised Edition, Wilson, 1953.

"The Library of the Office of Superintendent of Documents is of interest to librarians . . . because of the classification scheme by which its collection is arranged. It has been adopted by many other libraries throughout the country as a most convenient and satisfactory method of organizing and arranging collections of government publications.

"There have been three checklists of government publications. . . The third, which was much more inclusive and a monumental work of incalculable value covering the entire period of United States publications to 1909 . . . was published in 1911.

"A fourth edition, bringing the third edition to date, is the aid to government publications most needed by the librarians."

## ON MICROFILM

1,200,000 shelf list cards on 16mm microfilm (roll or cartridge);

arranged in SuDocs classification order by some 3000 government authors; and

current as of October 1970.

The active file contains approximately 550,000 cards describing publications of existing government authors and continuous series.

The inactive file contains 650,000 cards describing publications in discontinued series and items published by government authors that are no longer active.

Also, both files contain about 50,000 guide cards which indicate changes of titles and identify predecessor and successor organizations.

## SEPARATE SUBSETS OFFERED FOR MAJOR GOVERNMENT AUTHORS

Department level author breakouts are available separately upon request. For example, you may order individual microfilm reels covering the shelf lists of publications of the Department of Agriculture, Interior Department, Health, Education and Welfare. Please write for price information.

*"The most comprehensive single source of  
published information on U.S. Government  
Documents."*

Carper W. Buckley  
U.S. Superintendent of Documents  
1953-1970

## BIBLIOGRAPHIC DATA ON MORE THAN 1.5 MILLION U.S. GOVERNMENT PUBLICATIONS

Now available to librarians for the first time in any  
format. As stated by Carper W. Buckley, who until  
his retirement in 1970 had served as U.S. Superin-  
tendent of Documents since 1953.

*"Checklist '70* provides librarians with the most  
comprehensive single source of published information  
about United States Government documents. It lists  
all titles which appear in the shelf lists of the Public  
Documents Library of the U.S. Government Printing  
Office, covering the period 1861 through October  
1970. Also included are the publications listed in the  
*Checklist of U.S. Public Documents, 1789-1909*, the  
*Monthly Catalog* and Mary Elizabeth Poole's *Docu-  
ments Office Classification to 1966.*"

Each citation is at least as complete as the entries in  
the *Monthly Catalog* and often provides more infor-  
mation. For instance, bibliographic data on each issue  
of certain periodicals are included, as well as com-  
plete cross-references for changes in classification  
numbers, titles, or issuing agencies. Cutterized sepa-  
rates are listed for some series publications.

## IN BOUND VOLUMES — NOW AVAILABLE FOR INDIVIDUAL PURCHASE

These *five* full size indexes to the microfilm collection are now being supplied as part of the dual media edition and are also  
for the first time being made available as individual volumes. All but Index IV were computer generated and were compiled by  
Mr. and Mrs. Daniel and Marilyn Lester of Mankato State College in Minnesota.

**INDEX I. SUDOCs CLASSIFICATION ORDER INDEX OF U.S. GOVERNMENT AUTHOR-ORGANIZATIONS, 1789-1970** lists the names of some 6000 government "author-organizations" in SuDocs Class order showing microfilm  
reel numbers. casebound \$42.50

**INDEX II. U.S. GOVERNMENT AUTHOR-ORGANIZATION INDEX, 1789-1970** arranged alphabetically by the official  
names of 6000 active and inactive publication-issuing offices. This index brings together all SDC numbers for any issuing  
office regardless of its reorganization history. casebound \$42.50

**INDEX III. DEPARTMENTAL INDEX TO U.S. GOVERNMENT AUTHOR-ORGANIZATIONS, 1789-1970** contains a  
breakdown of Government issuing offices listed alphabetically under the cabinet level departments or major agencies to  
which they report. casebound \$42.50

**INDEX IV. U.S. GOVERNMENT SERIAL TITLES, 1789-1970** Note: *This index volume has been substantially expanded  
in size and scope since our initial announcement.* It now contains not only an alphabetical listing of 18,000 current and  
discontinued serial titles contained in the Serials card File of the Public Documents Library (with their SDC numbers and  
microfilm reels), but also their bibliographic histories and other annotations. This additional information was obtained by  
checking each title against the microfilm copies of the shelf list cards in both the active and inactive files.  
casebound \$52.50

## PLUS OUR NEWLY ANNOUNCED ADDITION TO THE CHECKLIST '70 INDEX SET

**INDEX V. KEYWORD INDEX TO THE PUBLICATION-ISSUING OFFICES OF THE U.S. GOVERNMENT, 1789-1970** Note: *This computer generated index was recently added to the 4 originally offered with Checklist '70, in  
order to provide a form of subject access to the massive collection.* It lists the 6000 Government "issuing offices" under  
some 27,000 subject oriented keyword entries. Because of the unusual length and descriptive nature of the names of U.S.  
Government offices, this keyword index provides a surprising degree of subject access. The fact that each "issuing office"  
is listed under an average of 4.5 descriptive entries (even after the exclusion of such general words as "bureau",  
"committee", etc.), attests to the effectiveness of the index. SDC numbers and reel numbers are repeated in each entry.  
casebound \$52.50

 This series, under the general editorship of Dr. Paul Wasserman, brings together previously published articles required for a comprehensive view of major topics in library science. It includes material from a wide range of disciplines in addition to the traditional literature of librarianship. The Series is invaluable for use as texts for courses in library science, supplementary course reading, a focus for seminar discussion, individual study.

**Two new case study books to help  
 students and librarians alike  
 learn from real library situations**

**CURRENT PROBLEMS  
 IN REFERENCE SERVICE**

by Thomas J. Galvin  
 6" x 9". 162 pages. \$9.95 net pp.  
 20% off on 5 or more.

Here are 35 case studies based on actual, emerging political and social issues which might arise in any modern library. They offer remarkable learning and teaching experiences for anyone concerned with libraries because they help the reference librarian, library student and library administrator to identify, analyze, judge and resolve such problems as requests for reading lists on sex education . . . library service in open-admissions colleges . . . application of performance budgeting to reference service . . . and more. LC 77-162527. June 1971.

**LIBRARY PROBLEMS  
 IN SCIENCE AND TECHNOLOGY**

by James M. Matarazzo  
 6" x 9". 191 pages. \$9.95 net pp.  
 20% off on 5 or more.

These 35 realistic case studies are designed to help students in pre-service and in-service programs, graduate classes, seminars and workshops master the sources and uses of scientific literature, and make the information available to a variety of clientele, from the young to the advanced researcher. The case studies cover the whole spectrum of complex literature and administrative problems involving scientific reference questions and sources . . . dissemination of scientific information . . . library planning, policy and supervision . . . collection building . . . and more. LC 70-164033. November 1971.

Both volumes are part of the Bowker Series, "Problem-Centered Approaches to Librarianship," edited by Professor Thomas J. Galvin of the School of Library Science, Simmons College.

CHECKPOINT protects more books and more journals in more libraries than all other systems combined . . . actually over 7,000,000 volumes and periodicals in well over 100 public, academic and special libraries in the United States, Canada, England and Puerto Rico.

in over  
**100 libraries**

Why the overwhelming preference for CHECKPOINT?

CHECKPOINT is reliable because it is designed on superior scientific principles . . . can't be circumvented by shielding or otherwise.

CHECKPOINT is silent and unobtrusive . . . accidental carry-out or deliberate pilferage are stopped instantly . . . without offending the patron or embarrassing the staff.

CHECKPOINT performs as promised . . . documented inventories prove book losses are reduced by almost 90 percent.

CHECKPOINT protects your entire collection . . . eliminates the need for closed stacks or restricted reserves. With CHECKPOINT you can relax.

Let us take you to inspect a nearby CHECKPOINT installation. Or ask us to send additional information. No obligation, of course.

ered upon acceptance of 1971 Aspen Humanistic Award by the French statesman, economist, and president of the "Action Committee for United States of Europe," an organization of leading political, business, and labor leaders of six nations of the Common Market and the U.K. The speech briefly describes the rationale behind the formation of the United States of Europe and the goals which it feels are essential to the future of Western Europe.

"A View from the White House," lecture delivered by Max Frankel, chief of the Washington Bureau of the *New York Times*, at the Aspen Institute, 1970. It presents a reflective view of the U.S. presidency, defining the terms by which our society must choose a president and the power which it is willing to have the president exercise.

"The Future of American Labor," lecture delivered by Gus Tyler, assistant president of the International Ladies' Garment Workers' Union, at the Aspen Institute, August 1970. Tyler gives an incisive account of the rise of trade unionism in the U.S. and an analysis of the crucial problems which it now faces.

- A new publication, *Journal Holdings of Maine Libraries*, has just been printed. The seven hundred and seven-page edition lists the journal holdings of thirty-one academic, public, and special libraries in the state of Maine. This computer-based list contains over 30,000 entries of the major libraries in the state. The book is available at \$5.00 each from Mr. William C. Ahrens, Assistant University Librarian, University of Maine, Orono, ME. Checks should be made out to the University of Maine.

- The August 1971 issue of the list of "Graduate Library School Programs Accredited by the American Library Association" is available upon request from the Committee on Accreditation, American Library Association, 50 E. Huron St., Chicago, IL 60611. Issued semi-annually by the ALA Committee on Accreditation, the official list gives the name and address of each library school offering an accredited program, the name of the dean or director, and the name of the degree to which the accredited program leads. Library schools offering doctoral and postmaster's specialist or certificate programs are so designated on the list.

## SERVING THE RIGHT TO KNOW

When Congress passes new laws on the draft, ecology, education, taxes, social security, labor, it affects everyone—the student, the citizen, the businessman, the instructor. To serve their need and right to know about and study these laws you can provide them with UNITED STATES CODE ANNOTATED. It contains all the permanent laws enacted by Congress. Easy to find, easy to understand. Also included are paragraph summaries of all reported court decisions involving these laws. And USCA can be kept absolutely current with all the **new** laws through U.S. CODE & CONGRESSIONAL NEWS. Information on UNITED STATES CODE ANNOTATED, U.S. CODE & CONGRESSIONAL NEWS and every other type of law book published is available
