School of Library and Information Services

An indispensable new reference tool for schools, public and special libraries, business firms, newspapers, advertising and public relations agencies, and government officials, *Awards, Honors and Prizes: A Source Book and Directory* is based on two years of intensive research and is the first single-volume source book and directory for current information on the prizes, awards, honors, and distinctions given in virtually every field of human endeavor. Its geographic emphasis is upon the United States and Canada; however, data is given for the major international awards and honors.

Listed and described are more than 2,000 different awards and prizes given in recognition of outstanding achievement in the fields of Literature, Art, Science, Education, Advertising and Public Relations, Business, Government, Finance, Engineering, Technology, Sports, Religion, Public Affairs, Radio and Television, Politics, Librarianship, Fashion, Medicine, Law, Publishing, International Affairs, Transportation, Architecture, Journalism, Motion Pictures, Music, Photography, or Theater and the Performing Arts.

Conveniently organized to permit quick and efficient reference to information under sponsoring body, popular name, or subject field of the award, each entry in its main section provides these details: (1) Name of sponsor; (2) Address of sponsor; (3) Exact title of the award; (4) Purpose of the award and terms of eligibility; (5) The exact form of the award (medal, citation, scroll, sum of money, etc.); (6) Frequency of award; (7) Date established; (8) Name of person or organization which established the award. The second section indexes awards alphabetically; the third is a subject index to awards granted in each subject area.
