High Society. Ice Cream Socials. Gang Wars. Fighting Words.

Human society has countless manifestations and meanings. We track them, and provide you with thousands of references to enhance your research.

Sociological Abstracts (SA), Social Planning/Policy & Development Abstracts (SOPODA) and Linguistics and Language Behavior Abstracts (LLBA) contain a spectrum of information directly related to your areas of interest and expertise.

Drawing from more than 2,400 journals published in 35 countries, we present abstracts of articles, books and conference papers. Our bibliographic entries will guide you to relevant dissertations and important book and other media reviews. All are expertly indexed and classified for easy access.

SA, SOPODA and LLBA are available in a variety of media: print, online, CD-ROM, and magnetic tape.

Let us help you discover the social worlds and patterns of communication by which we live.

SAI's Web site, located at www.socabs.org, contains searchable subsets of the SA, SOPODA, and LLBA databases, hot topics, the *Note Us* newsletter, and links to other relevant sites and resources.

What do Authority Control and Collection Analysis have in common?

Your Database

When your library sends bibliographic records to WLN for authority control processing, the MARC Record Service (MARS)[®] can analyze your entire collection to provide totals and percentages for the publication date ranges you choose. MARS is a complete authority control and database preparation service with full information on collection contents. Join the many libraries that rely on WLN for efficient, comprehensive and cost effective database preparation and collection analysis.
