Hawthorne. The 1972 volume includes articles by Louis Auchincloss, Robert Penn Warren, and
Arlin Turner. C. E. Frazer Clark, Jr., Editor—\$15.00.

WHEN IT COMES TO PATIENT CARE, A "GOOD-ENOUGH" CURRENT AWARENESS SERVICE ISN'T GOOD ENOUGH!

Practicing physicians need all the help they can get to keep up with new developments in their specialties. But, until now, it's been difficult to provide them with a current awareness service that's comprehensive and timely as well as inexpensive.

Starting January 3, 1973 there will be *Current Contents*[®]/*Clinical Practice* to solve the problem.

Each week, *CC*[®]/*Clinical Practice* will reproduce the tables of contents from more than 700 of the world's most important clinical journals (including all journals in the *Abridged Index Medicus*). That will give you the comprehensive coverage you need without increasing your journal budget or complicating your storage situation.

For timeliness, *CC/CP* will alert clinicians to new articles just days after they appear in the original journals. And because *CC/CP* will

contain a *Weekly Subject Index*, they'll find articles on specific topics without scanning every contents page. The index even makes *CC/CP* good for very quick retrospective searches.

And don't worry about getting copies of articles from journals you don't have in your collection. Each issue of *CC/CP* will be backed-up by our *OATS*[®] service that provides almost-instant tearsheets of any article.

Every medical library will need several copies of *Current Contents/Clinical Practice*: one for the reference shelf and enough for direct routing to each of the key clinical services. Use the coupon to get a list of covered journals and information on reduced multiple-copy rates.
