Euster (168 pages, November 1987), analyzes the contribution of the director's personal leadership style and management skills to the successful operation of a college, university, or research library. Euster develops a model of the leadership role that takes account of management literature regarding organizational leadership, open systems theories, and organizational effectiveness. Proposing a typology of library leaders, she presents detailed profiles of four primary leadership types—the "Energizer," the "Sustainer," the "Politician," and the "Retiree."
