

## Section Three: News and Views (of the Members of the ATLA Technical Services Section)

### NEWS

#### THE FUTURE OF TCB

Some exciting changes are coming to the *Theology Cataloging Bulletin (TCB)*. In January 2019, the *TCB* will become available open access on the same platform on which *Theological Librarianship* resides. Additionally, the publication schedule will change with the first issue of volume 27 coinciding with its release as an open access publication. The *Bulletin* will continue to be published quarterly with issues published in January, April, July, and October. Be mindful that the fourth and final issue of volume 26 will be in August of this year. These changes will mean that the publication pattern will shift to a more logical schedule and the content of *TCB* will be available to anyone.

Leslie Engelson, Metadata Librarian  
Waterfield Library, Murray State University  
*Theology Cataloging Bulletin* Editor

#### SACO

Watch for information about a Webinar later this spring promoting the inauguration of the ATLA SACO funnel.
