Personnel

On August 1, Dr. Gustave A. Harrer assumed his new duties as Director of Libraries at the University of Florida in Gainesville. The ap-

G. A. Harrer

pointment brought to a close eight exciting years during which, as head of the library system at Boston University, Dr. Harrer wrought far-reaching changes upon the Charles River campus. Under his directorship the library's budget, holdings, salaries, and professional staff were dramatically increased; valuable

collections were brought to the University; the Twenich Century Archives were infinited; the Friends of the Boston University Libraries was revoltalized as an organization; and the beautiful Mugar Memorial Library was constructed; consolidating nine departmental libraries on the amount. It was during the plasming and building of Mugar that Dr. Harrers catholicity of raree indeed is the man who in the same moning could discourse on medieval binding and how the construction crew how to adjust a particularly intricate mechanical apparatus.

A warm, affable man with a wide knowledge of books and human beings, Dr. Harere personifies the librarian-bookman-scholar-administrator in the best traditional sense. Linguist, musician, builder, traveller, reader, champion of civil liberties, husband, father, charming host, library consultant, and participant in crive, historic, and projessional organizations, he is in that unique position of having conquered the twenty-four hour day.

Dr. Harrer received his AB (1948), MA (1950), and PhD (1953, in Germanic Languages) from the University of North Carolina and his MS in LS from the University of Illinois (1954). Beginning his academic career as assistant professor of German and Latin at Millsaps College (1949-51), he entered the world of librarianship in 1954 when he was appointed Assistant Order Librarian, University of Tennessee Libraries, and then Associate Order Librarian at the same University the next year. In 1957 Dr. Harrer was wooed to the West Coast as Chief Acquisitions Librarian at Stanford University, and in 1958 was appointed Stanford's Assistant Director for Central Services, a post he held until his arrival in Boston in 1960,

Long active in ALA, and in the New Eng-

Iand, California, and Tennessee library associations, Dr. Harer has at various times sorved on some dozen national library committees, and has frequently contributed to professional library and academic publications. Among his honors are the American Cound of Learned Societies fellowship in Inguistics (University of Michigan, 1948): the Fund for the Advancement of Education faculty fellowship for advanced graduate work (1951-559); the Katherine L, Sharpe Alumni Pellowship (University of Illinois Library School, 1953-54; the Carnegie Seminar in Advanced Library Administration Fellowship (under Keys Metalif, 1958); and the CLR Crant for the Study of Book Number Code (1990).

Dr. Harrer's wide experience and fine personal assets assurelly mean that the University of Florida Libraries have acquired a unique Director. Having spent eight years in the Athens of the New World, it may be assumed that with the best wishes of his many friends, Gus Harrer also takes with him to the land of Ponce de León, the Puritan Ethic—Houard B. Golieb, Boaton University.

J. DONALD THOMAS took his bachelor's degree from Tulane in 1948 and his master's in library science at Columbia in 1951. His career has provided a wide vari-

ety of experience as background for his new position as executive secretary of the Association of College and Research Libraries. He has served on the staff of the documents division in the acquisitions department at Columbia: as librarian of the information service of the French Embassy in New York; as assistant librarian of Hunter

Mr. Thomas

College; as reference cataloger of the Standard Oil Company central library in New York; and as assistant chief librarian for the *Montreal* Star in Montreal.

In the fall of 1960, Mr. Thomas came to the University of Chicago library as adminitrative asstant to the director. Initially he was assigned a wide variety of problems in the public service fields, technical processing, physical plant maintenance, alteration, and planning. He became the first head of the general services division of the library, a post established in 1962. In this position Thomas, first as an assistant director and later as an associate director, had primary responsibility for operations of the major public services of the general library. With the close association and support of his department heads, he developed and implemented a wide variety of new and was, of course, heavily involved from the facginanty in the concepts and the planning of the Joseph Regenstein library.

Don Thomas has clear and strong views on the operational needs of libraries, and he has constantly been alert for opportunities to improve services, efficiency, or respond in other ways to operational requirements. He is impatient with those he believes to be slow or unresponsive in such matters. His wide background of professional experience is matched by a wide range of personal interests in which Mr. Thomas displays similar vigor, authority, and knowledge. He has a great, but disciplined affection for a reasonably wide assortment of dogs; he is a collector of early prints and engravings; he is a producer as well as a consumer of the finest in French cuisine; and still can find time to ski in both Aspen and Austria.

We are confident that with this background and this wide range of interests, ACRL will assuredly be enlivened by his disciplined and vigorous approach to many fundamental problems.—Herman H. Fussler, University of Chicago.

In reviewing candidates for the position of associate director of library services at Hofstra University a few years ago, we stated that we

needed a man strong enough to be receiving offers of head librarianships within three years. How precisely the successful candidate, Thompson M. Little, was chosen. is indicated in the fact that on November 1 he will become director of libraries at Ohio University, Athens, exactly three years from the day on which he joined our staff.

Tom Littles career

Mr. Little

has been marked by distinguished education and experience. After graduation from Bowdoin College, he worked briefly in an envelop factory. He guickly escaped, to attend the Columbia University school of library service, from which he graduated with heorors, and from whoth the graduated with more, and bestowed on a student in the school. Following five years of distinguished and increasingly responsible work at the Stanford University library, as social science reference librarian and assistant chief of the humanities and social science division, Tom returned to Columbia as librarian of the school of library service. He also has taught a course in social science literature at this school from 1962 to 1968.

For the past three years at Hofstra University he has been largely instrumental in guiding the development of a rapid library expansion that has tripled the staff, guadrupled the total budget and quintupled the book budget in a period of three years. His work has been especially outstanding in revising and reshapment with a more star library processing to the start when one creating procedures to use at the more of the entire library into a new library building.

Tom Little has worked actively in state, local, and national library affairs, and was a principal speaker at the Conference on the Bibliographic Control of Library Science Literature held this Spring in Albany. He is co-editor with Carl M. White of Sources of Information in the Social Sciences, for which he is now preparing a new edition. Tom Little is highly respected by the staff, and his general intelligence, wide range of skills, and ability to stimulate staff response come to Ohio University at an especially important time in its growth, as they prepare to move into a large new library building. The entire staff at Hofstra wish him a warm farewell, and look forward to following his career upward .- Ellsworth Mason, Hofstra University.

APPOINTMENTS

MRS. SUSAN ANTHES has joined the staff of the University of Miami as assistant reference librarian.

JANET AREY has been appointed reference librarian at Birmingham-Southern College,

LEE ASH, library consultant, has contracted to edit the 16-page bimonthly New England Library Association Newsletter, which will begin publication in January, 1969. Editorial address: 31 Alden Road, New Haven, Connecticut 06515.

JEAN BARNETT has joined the staff of the University of California library, Riverside, as cataloger-bibliographer in humanities.

JOSEPH M. BARTH has been appointed audiovisual librarian at the United States Military Academy, West Point.

RICHARD W. BEEDE has been named acquisitions librarian at the State University of New York College, Geneseo.

LAWRENCE BOWMAN has been named librarian of the Defiance College, Defiance, Ohio,

MRS. NANCY G. BOYLAN has been appointed head, government documents department at the University of Iowa libraries.

JERALDINE BYRNE is now in charge of the

bibliographic checking section at the University of California library, Riverside.

PHYLLIS CARTER has joined the staff of Duke University library as a descriptive cataloger.

CLYN EVANS, formerly research librarian of the Royal Society of Medicine Library, London, is now head of the machine project at the School of Medicine Library, Washington University.

RONALD L. FINGERSON has been appointed head, serials department at the University of Iowa libraries.

STUART FORTH is acting vice president for student affairs at the University of Kentucky.

ROBERT ANDREW GOLTER has accepted the position of assistant director of University Libraries and librarian of the J. Henry Meyer Memorial Library, Stanford University libraries.

HAROLD GORDON is acting director of libraries at the University of Kentucky.

CHARLES HICKS is now acting head of the acquisitions department at the University of Miami library.

MRS. PATRICIA HITCHINGS is now head of reference services at Hamilton Library, Edinboro State College, Pa.

DONALD C. HOFFMEISTER has joined the staff of the State University of New York College, Geneseo, as circulation librarian.

MARCIA JEBB is now associate librarian in the reference department, Cornell University libraries.

MRS. DORIS J JENSEN has joined the staff of the Cornell University libraries as assistant librarian, law library.

DIANE JOHNSON is a new staff member of the government publications department, University of California library, Riverside.

RICHARD M. KOLBERT has been appointed head, acquisitions department at the University of Iowa libraries.

CAROLINE D. LADEIRA has joined the staff of the Cornell University libraries as assistant librarian, serials and binding department.

WILLIAM T. LANE has been appointed reference librarian at the State University of New York College, Geneseo.

DR. HwA-WET LEE, chief librarian of Hamilton library, Edinboro State College, Fa., will be on leave during 1968-60 to serve as the library director of the Asian Institute of Technology in Bangkok, Thailand on an appointment by the Agency for International Development.

WILLIAM C. LEONARD has accepted appointment as head of the graphic arts service and instructor in library administration at the University of Oregon.

MRS. BONNIE MEYER LEDBETTER is now a cataloger at Birmingham-Southern College.

LESLIE H. MEVERS has joined the staff of the reference department, Cornell University libraries. DENNIS LEEPER is the new head of reader services, Hamilton Library, Edinboro State College, Pa.

MRS. KENNETH LISBERC is a new staff member at the School of Medicine Library, Washington University.

VENITA MCPHERSON is a new staff member in the reference department at the University of California library, Riverside.

THOMAS L. MANN has been appointed acting assistant reference librarian at Wisconsin State University, Whitewater.

JOHN H. MARTIN has accepted the position of acquisitions librarian at the School of Medicine Library, Washington University.

MRS. CHERIE MONTCOMERY is now circulation librarian at the School of Medicine Library, Washington University.

JUDITH A. PROCTOR has joined the staff of the Cornell University libraries as assistant librarian, serials and binding department.

JOSEPH SCHWARTZ is now director of reader services and assistant librarian at the University of Minnesota Library, Duluth.

NASSER SHARIFY has been named dean of the graduate library school, Pratt Institute.

STANLEY SKARZYNSKI has joined the staff of the Hamilton Library, Edinboro State College, Pa., as a bibliographer.

LOUISE STEWART is now head, acquisitions section, University of California library, River-

STUART A. STIFFLER has been appointed librarian at Findlay College.

MAHHARDI SUPRAPTA is now an assistant catalog librarian, Cornell University libraries.

ELIZABETH VAN LEUVEN is now the Russian bibliographer-cataloger at the University of California library, Riverside.

VERCINIA VEIT has joined the staff of the Jackson Library, Stanford University libraries, as a cataloger.

MRS. LANCE C. VINSON is a new cataloger at Bowdoin College's Hawthorne-Longfellow library.

SAUL WEINSTEIN has been named acting chief librarian for 1968-69 at Hamilton library, Edinboro State College, Pa.

MRS. EMMA WILLIAMS has assumed the duty of assistant to the chief librarian at Hamilton library, Edinboro State College, Pa.

DONALD G. WILSON has been appointed acting university librarian at the University of California library, Riverside.

CLIFFORD WURFEL has been named head of special collections at the University of California library, Riverside.

MRS. MARGARET CARTER ZIEMAN became reference assistant at Georgia Institute of Technology on September 1.

INFORMATION DYNAMICS CORPORATION Searching out and typing an LC entry takes up to 20 minutes. It means in-filing and out-filing. And skilled personnel to handle it. But now it can be done in less than two minutes... even by clerical personnel.

The new way is the Micrographic Catalog Retrieval System that automates your search and print-out procedures. Basically we have done the filing and look-upsfind index by both LC Card Number and Main Entry. You have only to select the proper Microfiche card from the quick-find index. Insert this card in a Reader-

Over 1.100 LC Entries are contained on a single Microfiche card . . millines Microfiche file.

Printer. Just six seconds later you have a full-size LC copy.

You are always current with the Micrographic Catalog Retrieval System ...months ahead of the printed LC cards. Subscribers receive weekly issues on Microfiche of approximately 3,000 advance release LC cards, all alphabetized in a cumulative 13-week Main Entry Index. Cumulative issues monthly, quarterly and annually are also provided.

> The M-C-R System releases your skilled personnel, speeds work flow, and simplifies the complexities of staying abreast of current LC output. We'd be happy to give you a convincing demonstration.

This coupon can be the beginning of the end of your LC search problems.

AVAILABLE IN OCTOBER

Financial Assistance for Library Education, a list of fellowships, scholarships and grantsin-aid which will be available for the academic year 1969/70 has been prepared by the Office for Recruitment and will be available from that office late in October. Price is 50 cents for a single copy; 10 copies—\$4.75; 25—\$11.25; and 100—\$42.00.

that LC, which since 1961 has been supplying (on contract) subject headings for doctoral dissertations, has stated that because of the great increase in the work and the shortage of catalogers, it can no longer continue this activity without impairing the library's effectiveness in other programs. University Microfilms, meanwhile, has developed the DATRIX (kevword-in-title) system. This system leaves something to be desired, said Mr. Buckman, but LC headings for some subjects did also, and earlier efforts to have each institution assign subject headings to its own dissertations had proved even less satisfactory. A choice, however, must be made, University Microfilms will provide money for an analysis of the suitability of DATRIX descriptors, and, meanwhile, LC will be asked to continue the contract for a year until this investigation can be completed. Directors of ARL libraries were asked to give this matter their personal attention. Mr. Buckman will try to have remedied the six to eight week delays in the delivery of microfilms already mentioned, as well as six to eight month delays in getting dissertations microfilmed by University Microfilms, another serious problem for academic libraries.

G. F. Shepherd (Cornell University libraries) reported that *The New York Times* would replace any substandard microfilm of the newspaper supplied between September 1, 1967, and April 1, 1968. A team from the Eastman Kodak Company has found that the film now meets archival standards.

Dr. Logsdon "told it like it was" at Columbia during the student sit-in there, and librarians of other universities spoke of some of the consequences for libraries of campus demonstrations, for instance, in regard to insurance.

L. Quincy Mumford, Librarian of Congress, who distributed a summary-but fairly lengthy-report on the library, described the status of appropriations to LC, of the bill to amend and extend the Higher Education Act, including the amendments to Title II-C of that Act requested by LC. and of appropriations for Title II-C. He pointed out that the \$2.8-million item in the budget of the Architect of the Capitol for the Library of Congress James Madison memorial library building had been "deferred without prejudice" by the House Appropriations Committee (as later it also was by the Senate), and he spoke of the library's increasingly dire need for space and the adverse effect that this may have on national programs.

President Eaton, after noting that other reports had been filed, announced that the next ARI. meeting would be on Jannary 26, 1996, in Washington, D.C. The Association will spend Saturday, January 25, at LC inspecting activities and being briefed on programs and developments of interest to ARL. After some graceful words of thanks by Benjamin Powell (Dake University library) to the Linda Hall library and its Director Joe Shipman, for "extraordinary hospitality," the meeting adjourned.—Elizabeth E. Hamer.

RETIREMENTS

PHILE HOFER, collector and bibliographer, has retired after 30 years of service as curator of the department of printing and graphic arts in the Harvard College library. Mr. Hofer founded this department, the first of its kind in a university library, with his own collection of 10,000 books and manuscripts in 1938.

NECROLOGY

MISS RUBY E. DARE, librarian of Greenville College, Greenville, Illinois, succumbed to a massive stroke on August 8, 1968 at the age of 63.

IN MEMORIAM

Contributions to a Rudolph H. Gjelsness Scholarship Fund are being received by the University of Michigan department of library science.

The New York public library has established an Archibald P. De Weese Memorial Book Fund.
