# **ACQUISITIONS**

• The Essex Institute, Salem, Massachusetts, has acquired the largest and most comprehensive collection ever assembled of books and manuscripts by and about novelist Nathaniel Hawthorne (1804-1864). This collection of over 8,000 books, pamphlets, periodicals, prints, photographs, and manuscripts was gathered over a period of 30 years by C.E. Frazer Clark of Bloomfield Hills, Michigan, editor of the Nathaniel Hawthorne Journal. Included are rare first editions, limited editions, popular modern editions, books inscribed by the author or owned by him, and Hawthorne's very rare first book, Fanshawe, published anonymously in 1828. Another treasure is a large glass-plate photographic negative of the novelist taken by Civil War photographer Matthew Brady.

• Ohio State University, Columbus, has acquired the Jack London Collection assembled by George H. Tweney, of Seattle. Among its 900 items are 237 book printings of London's writings and 111 issues of various magazines containing first appearances of his stories. Of the 73 first editions and variants, 14 are signed, presentation or association copies, and many are complete with very rare dust jackets. The collection also has 83 bibliographies,

biographies and critical works; over 230 pamphlets, broadsides, or other ephemeral pieces; many photographs; and additional materials, including a typescript of Jack London: A Bibliography, compiled by Hensley C. Woodbridge, John London, and Tweney. It was the Tweney Collection, gathered over a period of 50 years, that served as the basis for many of the entries in that bibliography.

•The University of Illinois has been given a private collection of books on Chinese library administration once owned by Alfred Kaimang Chiu, the first librarian of the Harvard-Yenching Library at Harvard University, 1931–1965. The books, 240 volumes in Chinese, 170 volumes in English, as well as manuscripts, pamphlets, and copies of essays on Chinese economics, were donated by Chiu's widow.

## **GRANTS**

 CORNELL UNIVERSITY's Martin P. Catherwood Library of Industrial and Labor Relations has received an HEA Title II-C grant of \$240,000 to convert all its catalog records to machine-readable form and add them to the RLIN and OCLC databases.

•Lehigh University, Bethlehem, Pennsylvania, has been awarded a \$500,000 challenge grant by the Kresge Foundation toward the \$10.8 million expansion of the university's Mart Science and Engineering Library. Prior to receiving the challenge grant \$7.3 million had been committed to the library project. The new library building, for which ground was broken in May, represents a major expansion of existing facilities.

 The Oregon Health Sciences University, Portland, has been granted a federal appropriation of \$20.4 million to create a national prototype for the biomedical library of the 21st century. The university will recieve \$14.5 million to expand its existing library by 50,000 square feet, to upgrade the current collection, to assure its compatability with existing computer systems, and to create a Biomedical Information Communications Center that will utilize new technology in information trans-

### **Deadlines Approaching**

Although at this writing the exact amount of funding to be appropriated in 1984 for the Higher Education Act Title II library grant programs is uncertain, the U.S. Department of Education has encouraged college and research libraries to apply for grants to be awarded next year.

November 18 is the closing date for applications for HEA II-A College Library Resources Program grants. In Fiscal Year 1983, nearly \$2 million was awarded to 2,141 institutions either directly or through joint applications, with each institution receiving an average of \$890. Application forms are available from Library Education, Research & Resources Branch, Attn: II-A, U.S. Department of Education, 400 Maryland Ave., S.W., Washington, DC 20202; (202) 254-5090.

October 17 is the deadline for library schools or other institutions to apply for new projects under the HEA II-B Library Career Training Program. In Fiscal Year 1983, 33 grants were awarded totaling \$640,000 which provided fellowships to 75 individuals. Forms may be obtained from Library Education, Research & Resources Branch, Attn: II-B, U.S. Department of Education, 400 Maryland Ave., S.W., Washington, DC 20202; (202) 254-5090.

November 14 is the closing date for applications for HEA II-C Strengthening Research Library Resources Program grants. In Fiscal Year 1983, 49 grants were awarded, with institutions receiving an average of \$122,000. Application forms are available from Library Education, Research & Resources Branch, Attn: II-C. U.S. Department of Education, 400 Maryland Ave., S.W., Washington, DC 20202; (202) 254-5090.

fer. An additional \$5.9 million will be used for research and development. The new facility will provide for computer teleconferencing among health professionals in the Pacific Northwest and will encourage exploration into new teaching methods and new communications techniques.

• RUTGERS UNIVERSITY Libraries, New Brunswick, New Jersey, have been awarded \$6,590 by the Guggenheim Foundation to support the arrangement and description of the Robert Ardrey papers and the editorial and publication costs associated with the production of a collection guide with indexes. The papers include correspondence from those active in anthropology and sociology, from readers of his books African Genesis, The Territorial Imperative, and The Social Contract, and copies of Ardrey's own letters.

• The University of Texas, Austin, has been awarded an HEA Title II-C grant of \$180,998 to catalog approximately 10,000 Latin American monographs. The bibliographic information will

be added to the OCLC database.

• Washington University Libraries, St. Louis, have been awarded an HEA Title II-C grant of \$205,168 in support of their Modern Literature Collection. The funds will be used to acquire contemporary literary manuscripts of selected American authors, to complete cataloging of the papers, and to prepare a published guide to the collection.

#### **NEWS NOTES**

• The American Antiquarian Society, Worcester, Massachusetts, has established a research and education program on the history of the book in American culture. Boston University history professor David D. Hall has been appointed chairman of the program, which will employ the resources of the AAS library. Scheduled activities include an annual lecture series, workshops and seminars or postdoctoral scholars and advanced graduate students, conferences, research projects, publications, and residential fellowships. The AAS program will link traditional bibliographic research on the book as artifact with the French approach to the book in the context of economic, social, and cultural history. For more information about the program, contact the Society, 185 Salisbury Street, Worcester, MA 01609-1634; (617) 755-5221.

From: Institute for Scientific Information®
Chemical Information Division

# To: College and University Librarians worldwide

We're offering you a special discount on *Current Abstracts of Chemistry and Index Chemicus®* (*CAC&IC®*)—the weekly publication that will alert you, your colleagues, and your students, to new organic compounds reported in the chemical journal literature.

Right now qualifying colleges and universities receive these **substantial discounts** on the regular price of \$2,600 for a single-copy subscription to *CAC&IC*:

if your enrollment is: your subscription price is: under 1999 \$600 2000 to 4999 \$1560 over 5000 \$1750

. . . plus, every educational subscriber receives these valuable "extras":

- a <u>free seminar</u> conducted at your institution by an ISI chemical lecturer.
- a <u>free set of teaching materials</u>, including a variety of literature search problems useful for organic chemistry and chemical information courses.
- 1 <u>free subscription to Automatic New Subject Alert®</u> (ANSA®). 12 monthly reports will alert you to the current journal literature on the research topic of your choice. You simply describe your area of interest (your search profile can include substructure, journal title, biological activity, etc.) and *ANSA* does the rest!

There's never been a better time to subscribe to *CAC&IC*. Now you can get the dependable, current chemical information in *CAC&IC* plus valuable "extras" at a substantially reduced rate. Write to ISI's Chemical Information Division at the address below—we'll send you a discount application form right away.
