• To make those federal agency records having research value more available for use by scholars, students, and other researchers, the **NATIONAL ARCHIVES AND RECORDS SERVICE** of the General Services Administration has established eleven Archives Branches in Federal Records Centers throughout the nation. The Chicago FRC serves the states of Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin, and is open from 8 A.M. until 4:30 P.M. Monday through Friday.

The record holdings of the Chicago FRC from ninety federal agencies date from the 1790s to the 1960s. Most of the records are available for research use, but some require prior agreement of the agency of origin. For details on a specific agency or topic, write to the Chief, Archives Branch, Federal Records Center, 7201 S. Leamington Ave., Chicago, IL 60638. A reply will be sent giving information on the relevant holdings in Chicago and other facilities of the National Archives and Records Service.

The Archives Branch has accessioned over 25,000 cubic feet of U.S. District Court records dating from the early 1800s until the mid 1940s. Contained in these files is information on most social and economic events of the day.

Over 800 cubic feet of material from the Indian agencies in Michigan, Wisconsin, and Iowa are also available and relate to lumbering operations, BIA administration, schools and hospitals, and tribal affairs.

• The AMERICAN SOCIETY FOR INFORMATION SCIENCE announces the second annual "ASIS Student Member Paper Contest," designed to encourage information-science students to prepare reports of their work for appraisal by information scientists in terms of technical competence, significance of findings, originality, and clarity of exposition.

Sponsored by the ASIS Education Committee and supported by the ASIS Scholarship Fund, it is limited to any ASIS member who is a student member for the current calendar year (1973), or was a student member during the previous year (1972). The paper may be on any topic of interest to information scientists.

The contest winner will receive round-trip travel expenses and full registration for the 1973 ASIS Annual Meeting (to be held in Los Angeles, California, October 21–25), and will be given a certificate for the Best ASIS Student Member Paper at the Annual Awards presentation. The award-winning paper will be published in the Journal of the American Society for Information Science.

A panel of judges appointed by the chairman of the Education Committee and made up of information-science educators and members of the referee staff of the *Journal* will evaluate the papers. The deadline for submission of papers is May 1, 1973. Four copies of the contest papers should be sent to the ASIS Education Committee, ASIS, 1140 Connecticut Ave., N.W., Washington, DC 20036. PARNASSUS REVISITED Modern Criticism and the Epic Tradition

Anthony C. Yu, editor

In this vital and stimulating anthology, eighteen distinguished critics, representing the best of modern scholarship, examine the nature of the epic. Among the contributors are C. S. Lewis, E. M. W. Tillyard, Northrop Frye, Erich Auerbach, Simone Weil, C. M. Bowra, and George Steiner. Professor Yu's selections from their works focus upon the important analytical tools which these critics have devised to study and clarify the epic poetry of the Western world. *Coming Summer 1973*
