Editorial

LILIANA LÓPEZ^a, RAMÓN GIRALDO^b

Departamento de Estadística, Universidad Nacional de Colombia, Bogotá, Colombia

Dear readers

Welcome to the second issue of the 39th volume of Revista Colombiana de Estadística (Colombian Journal of Statistics). First of all, as Editors of this Journal we would like to thank to all authors for considering Colombian Journal of Statistics for submitting their scientific work and for their cooperation to carry out all the steps of the review process. We also thank all referees and the Editorial Committee for their valuable work to acieve a high scientific level of the papers.

The nine articles published in this issue, following the Editorial policies of Colombian Journal of Statistics, range over diverse areas of statistics. Papers showing new developments in topics of major interest for statistical modeling are included. Authors from Colombia, Iran, Pakistan, Spain, Saudi Arabia, and Venezuela show contributions in time series analysis (Nieto & Moreno), quality control (Riaz & Abbrazi; Sindhu, Riaz & Ahmed), analysis of textual data (Font, Puig & Ginebra), statistical inference (Fallah & Khoshtavkib), multivariate analysis (González), experimental design (Rodríguez, Darghan & Monroy), sampling (Gutiérrez, Zhang & Rodríguez) and statistical models in finance (Gómez-Déniz & Pérez-Rodríguez). All the articles show theoretical and methodological advances combined with the analysis of simulated or real data.

As in the first issue of this volume the submission process was completely carried out through our web service (http://www.revistas.unal.edu.co/index.php/estad). This has allowed us to improve the efficiency of the revision and publication procedures.

We are proud to announce that Colombian Journal of Statistics has improved its impact according to the Scimago Journal Rank Indicator (SJR) given by Scimago Journal & Country Rank. Now we have a SJR which positions us as second journal in the subject of statistics and probability in Latin America.

We hope you enjoy this issue and invite you to continue reading and submitting your work to Colombian Journal of Statistics

Kind regards
