

## **INFUS Conferences**

<http://infus.itu.edu.tr>

INFUS (<http://infus.itu.edu.tr>) is an acronym for Intelligent and Fuzzy Systems. It is an international research forum to advance the foundations and applications of intelligent and fuzzy systems, computational intelligence, and soft computing for applied research in general

and for complex engineering and decision support systems. The principal mission of INFUS is bridging the gap between fuzzy and intelligence systems and real complex systems via joint research between universities and international research institutions, encouraging interdisciplinary research and bringing researchers together from multiple disciplines.

### **Theme**

INFUS has been organized annually since 2019, and this year the fifth conference will be organized on August 22-24, 2023. Each year, a theme is selected, and special sessions are organized based on the theme. This year, our theme is Intelligence and Sustainable Future. The themes of the previous conferences are as follows:

- 2019: Intelligent and Fuzzy Techniques in Big Data Analytics and Decision Making
- 2020: Smart and Innovative Solutions
- 2021: Emerging Conditions and Digital Transformation
- 2022: Digital Acceleration and The New Normal

## Keynote Speakers

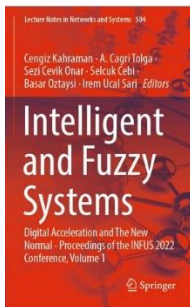

Each year, INFUS invites world-renowned researchers on fuzzy logic and intelligent systems as keynote speakers. The keynote speakers attending the next INFUS are as follows:

- AHMET FAHRI OZOK
- AJITH ABRAHAM
- HABIB ZAIDI
- JANUSZ KACPRZYK
- KRASSIMIR T. ATANASSOV
- OKYAY KAYNAK
- OSCAR CASTILLO
- VICENC TORRA
- VILEM NOVAK

## Publication Opportunities

All accepted papers are Double Peer Blind Reviewed, and the accepted papers are published in the Web of Science indexed proceedings by Springer. Furthermore, the selected papers have the opportunity to be published in conference associated journals. Up to now, hundreds of articles have been published in the following journals:

- *Journal of Intelligent and Fuzzy Systems* (SCI-E)
- *Symmetry* (SCI-E)
- *International Journal of Computational Intelligence Systems* (SCI-E)
- *Journal of Multiple-Valued Logic and Soft Computing* (SCI-E)
- *Journal of Information Assurance and Security* (ESCI)
- *International Journal of Risk Analysis and Crisis Response* (DOAJ)
- *Journal of Fuzzy Logic and Modeling in Engineering* (Scopus)
- *International Journal of Analytic Hierarchy Process* (Scopus)

### **Program and Social Events**

The conference includes a social program that is organized to include top sights in the cities where the INFUS conference is held. The following pictures show some wonderful memories from these programs.
