

Words from the Editor-in-Chief

I am pleased to introduce our first special issue about the status of AHP/ANP applications in Brazil. This issue has a distinguished guest editor, Prof. Valerio Salomon, currently an associate professor at Sao Paulo State University, who has had vast experience in the field of AHP/ANP. Valerio Salomon obtained his Ph.D. in Industrial Engineering from the University of Sao Paulo (USP), Brazil, in 2004. He teaches Industrial Engineering in graduate and undergraduate courses at the Engineering School of Guaratingueta. Prof. Salomon was a visiting scholar at the University of Pittsburgh from August to September 2007. His areas of interest include the AHP and Fuzzy Sets. Because of all this, I feel confident this special issue is in very good hands. Enjoy!

Enrique Mu, PhD
